Dear Mr. Evenson:

Re: Commission Review of and Response  
to the FCC's Triennial Review Order  
Docket No. 05-TI-824

We represent TDS Metrocom, LLC ("TDS Metrocom"), a competitive local exchange carrier providing residential and business services in Wisconsin. Pursuant to the Notice of Investigation dated July 25, 2003, TDS Metrocom provides the following comments concerning the Commission's investigation of the forthcoming Triennial Review Order from the Federal Communications Commission ("FCC").

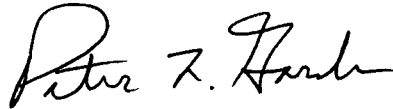

TDS Metrocom's specific statement of issues of concern, the importance of those issues to the Commission's investigation, and a proposed process will be submitted after the Triennial Review Order is issued by the FCC and an opportunity has been provided to review the Order in detail. Generally, TDS Metrocom believes that the continued application of state law to the unbundled network element offerings of incumbent local exchange telecommunications companies is vital to the continued expansion of telecommunications competition in Wisconsin. TDS Metrocom also believes that the Commission must undertake a comprehensive, deliberate, and complete investigation of the Triennial Review Order, and that the process for this investigation should be determined after the Triennial Review Order is issued and input from interested parties has been received. Under any circumstances, that process likely will include briefing, testimony, and hearing.

We look forward to providing more specific comments concerning the issues in this proceeding after the Triennial Review Order is available.
